ANKLEBITER

HANDS DOWN, the best kids board in the world! PERIOD! Perfect for kids just starting out, and even "perfecter" for the hardcore kids! It's incredibly easy for your little pint sized shredder to flip it up to their feet making the process of getting up effortless. And if your little shredder is starting to progress to higher level tricks, the ANKLEBITER will still be there to deliver. Just ask Junior and Amateur World Champion, Evan Hudson, who is able to smash out pro level tricks on this very board! So, if you got a little pro in the making or you need some technology helping your kid to get up and surf... give our ANKLEBITER a try!

AVAILABLE SIZES:
3'8" up to 110LB

Team rider:
EVAN HUDSON

AVAILABLE SIZES:

46" up to 140LB
49" up to 160LB
52" up to 200LB
56" up to 250LB

Team rider:
TRACEY WRIGHT

Big airs and increased stability are the name of the game with this wave slayer! We took the design of our proven VEDDER model skimboard and widened the nose and tail to give it plenty of DOWN-THE-LINE speed and a fatter tail to boost huge airs! Ultralight construction and durability is our standard. Recommended for beginner to advanced riders. Make the BLUNT your next skimboard of choice!

AVAILABLE SIZES:
46" up to 140LB
49" up to 160LB
52" up to 200LB
56" up to 250LB

Team Rider:
SARA TALLON

Our premium BLUNT offering. The BLUNT CARBON PRO. The standard BLUNT, wrapped in carbon fiber for a stronger and more rigid board. Additional nose and tail volume provide more stability to allow riders to effortlessly land advanced spins or shuv related tricks. This board is unbreakable for even the heaviest, most advanced riders despite its ultra-thin construction. Hand built and meticulously shaped to the finest detail. The BLUNT CARBON PRO is available in limited quantities. Recommended for beginner to pro riders. The board of choice for Pro Riders: Sara Tallon and Bailey Rush and Outlaw Riders: Ricky Edmonds and Tracey Wright.

VEDDER

AVAILABLE SIZES:

48" up to 150LB
53.5" up to 210LB
56" up to 250LB

Team rider:
CAITLIN WHEELER

Our most popular skimboard featuring a classic pin-tail design. Our riders wanted a board that would pop big airs, easily release for shuv variations and effortlessly drift. What we came up with is The VEDDER. It's lightweight, has sharp rails, and a proven shape giving it unrivaled responsiveness and speed. Add to it our ultra low profile skim fin or none at all for one incredible board! Recommended for beginner to advanced riders.

VEDDER

CARBON PRO

AVAILABLE SIZES:

48" up to 150LB
53.5" up to 210LB
56" up to 250LB

Team rider:
TYLER STEWART

Our flagship skimboard. The VEDDER. Wrapped in carbon fiber for a stronger and more rigid board. The VEDDER CARBON PRO is our lightest, fastest, and most durable skimboard offering. The CARBON PRO VEDDER is available in limited quantities and is meticulously made with the highest quality materials. Ultra thin construction, sharp rails, and proprietary rocker give the board a unique feel making it a favourite amongst all who ride it. Recommended for intermediate to pro level riders. The board of choice for pro riders: Camron and Taylor Swanson, Adam and Caitlin Wheeler, Chad and Nicole Hudson, Codey Inman, and so many more!

SHIFT

AVAILABLE SIZES:
4'6" up to 200LB
4'9" up to 250LB

Team rider:
STEPHEN HAMMELL

We originally set out to make a Hybrid skim/surf style board that would be a perfect entry level board that people new to the sport of wakesurfing could progress on. What we ended up with was so much more. As a skimboard, it's a forgiving and fun board to ride. As a surfboard, it's perfect for the intermediate surfer. The SHIFT comes with two sets of fins: small nubsters for skim style and traditional-length surf fins. Unsure which type of surfing you may prefer or simply just want one board that does it all the SHIFT is your board!

AURORA

Lily Anderson

The AURORA was designed by Pro Rider, Lily Anderson, to be an aggressive surf style board crafted for riders in the 110-150lb class. For 2020, we will offer two versions of the design: the AURORA Standard with blunt nose, angled fins and larger tail and the LILY PRO, featuring a Diamond nose, straight fins for easier revert riding and sharper rails for increased speed and responsiveness. This board will help progress your riding and new tricks will come easier than ever before - just ask Lily, who won the Outlaw World Championship in 2017 and finished 3rd in Pro Women's Surf in 2019!

AVAILABLE SIZES:
4'2" up to 110LB
4'4" up to 150LB

Team rider:
LILY ANDERSON

DARKSTAR

AVAILABLE SIZES:
4'6" up to 200LB
4'9" up to 250LB

Team rider:
STEPHEN HAMMELL

Our O.G. competition level surf style board, the DARKSTAR, features lightweight, high end materials for superior strength and flex patterns. The Stealth Tech rails and deep concave along the bottom of the board make it one of the fastest, most responsive boards available today. So fast that you should expect to reduce the size and weight of your current surfboard, making this board something that will greatly aid your progression to pro-level tricks! Engineered and perfected by World Champion, Stephen Hammell, this board will definitely take your riding up a level or two.

AVAILABLE SIZES:
4'2" up to 130LB
4'4" up to 160LB

Team rider:
CASSIDY GALE

The CASSIDY PRO was designed by 2X World Champion Cassidy Gale, to be fast and easy to spin and dialed in to promote steady progression to revert riding and shuv tricks! Available in multiple colorways for 2020, this board is ideal for riders in the 110-160LB class (namely ladies and teenagers). Aggressive sharp rails, straight finboxes, and hourglass shape make this board incredibly agile, sure to bring your riding to the next level.

AVAILABLE SIZES:
4'3" up to 150LB
4'5" up to 185LB
4'7" up to 230LB

Team rider:
CONNOR BURNS

Hands down, the most popular board in our arsenal, The BURNSY PRO was designed by 2X World Champion, Connor Burns. It's a surf style board that allows for maneuvers only thought possible on a wake skim board or even a skateboard. Its low nose rocker, hard Stealth design rails and deep concave make it incredibly fast delivering high-amplitude airs well above the wave's crest. The straight fin design and placement loosens the board to achieve gnarlier surface spins, shuv's, bigspin's and so much more! Have a look at Connor's podium history; this board truly delivers!
